Transforming Student Data Management & Empowering Higher
Education Since 1993

Partners in Excellence

A Legacy of Success

Since 1993 LOGOS has been dedicated to providing world-class technology solutions to the higher education sector. In addition to financial institutions, government, utilities, and companies

- **Global Reach:** Serving institutions across Oman, Saudi Arabia, Bahrain, Sudan, Lebanon, and Syria.
- **Proven Expertise:** Over two decades of experience in Oracle Technology, Implementation, and Support.
- **Client-Centric:** Building lasting partnerships that drive institutional growth.

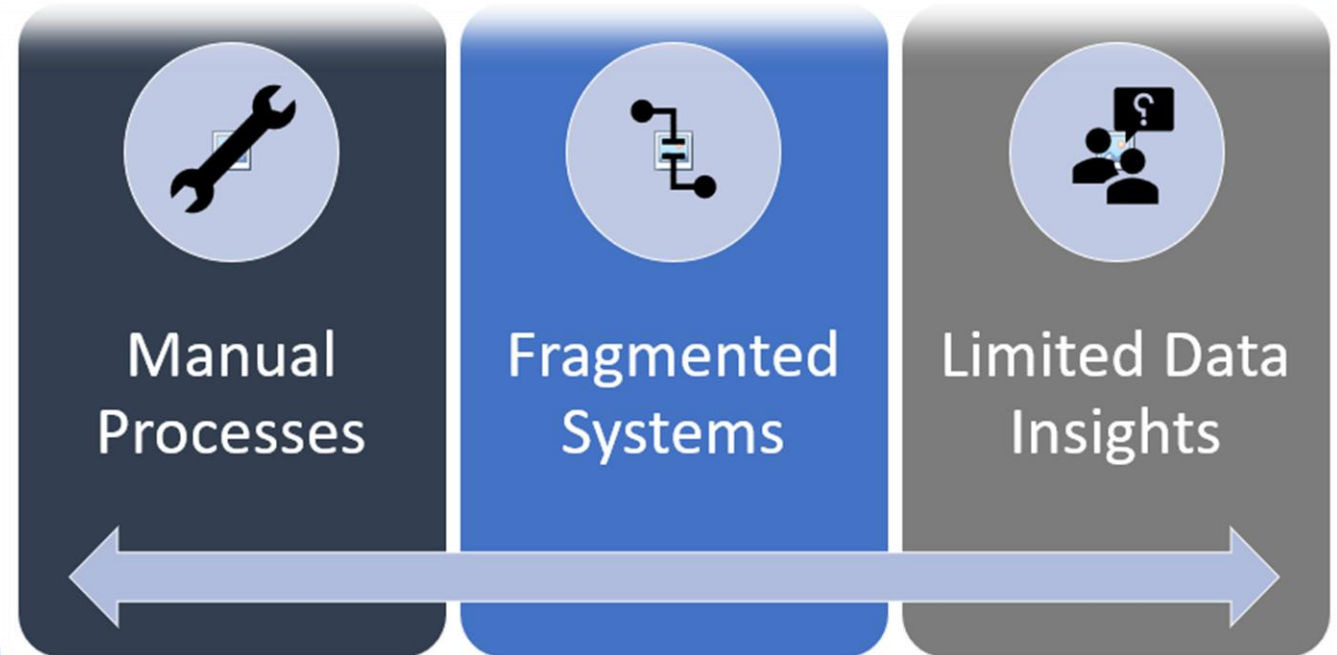

The Challenge

Pressure on Higher Education

Institutions today face a dual challenge: optimizing operational efficiency while delivering a personalized, seamless experience for students.

Managing complex data across recruitment, admissions, and the entire student lifecycle requires a robust, unified solution that many legacy systems simply cannot provide.

Higher education institutions face increasing pressure to optimize operations while delivering personalized student experiences

Why LOGSIS?

At LOGOS, we transform student data management to help universities achieve excellence.

Recruitment & Admissions

Streamlined Journey

LOGSIS transforms the initial student experience, managing the entire journey from lead generation to final enrollment.

Lead Management: Capture and nurture potential applicants effectively.

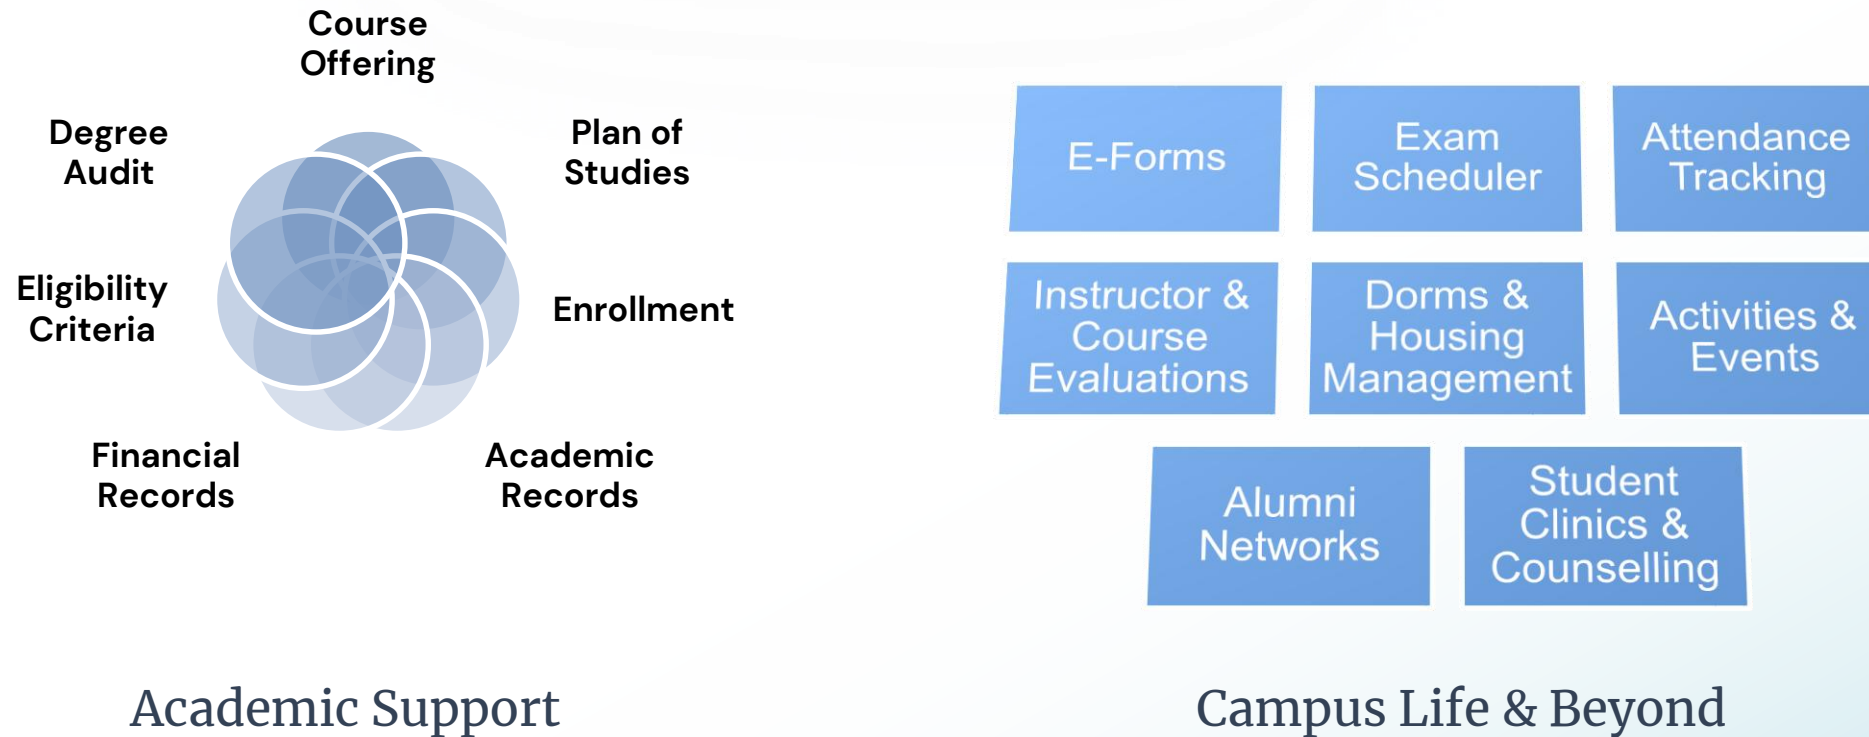

Admission Dashboard: Real-time overview of application statuses and trends.

Seamless Enrollment: Frictionless transition from applicant to registered student.

Integrated Student Lifecycle Management

LOGSIS integrates academic planning, financial records, student support, and campus services into one platform.

Intelligent Student Lifecycle Automation

- Intelligent admission eligibility validation, ensuring policy compliance and faster enrollment decisions
- Fully automated student registration into required courses and blocks, ensuring accuracy, compliance, and zero manual effort
- Personalized course recommendations that guide students toward optimal and effective academic pathways
- Intelligent section and timetable recommendations optimized for student needs, academic performance, and workload balance
- Automated classroom and space allocation for efficient, conflict-free scheduling

Intelligent Student Lifecycle Automation

- What-if scenario modeling to simulate academic planning decisions with confidence
- Automated graduation readiness identification, with bulk processing to streamline academic operations
- Student success intelligence, including at-risk identification and academic honor recognition
- Intelligent attendance monitoring and early-warning alerts, automatically calculating absences and highlighting students at risk

Registration & Analytics

Data-Driven Decisions

Empower your administration with powerful insights.

- **Registration Dashboard:** Monitor course loads, fill rates, and registration bottlenecks in real-time.
- **KPIs & Cohort Analysis:** Track student performance and retention across different cohorts to improve outcomes.
- **Strategic Planning:** Use historical data to forecast trends and allocate resources effectively.

Seamless Transition, Expertly Delivered

“

" نحن في جامعة الشرقية نستخدم نظام SIS من شركة Logos. تجربتنا مع الشركة ممتازة من الناحية الفنية والتقنية بالنسبة لجدولة المقررات وآلية القبول والتسجيل "

الدكتور محمد الفرعي

مدير القبول والتسجيل في جامعة الشرقية - عمان

“

”سر نجاح النظام الإلكتروني لا يعتمد على مواصفاته الفنية فقط وإنما أيضا على قدرة فريقه المطور على تكيفه مع المتطلبات المتغيرة باستمرار، شركة لوجوس تضمن الميزتين (عن خبرة عقدين من العمل المشترك)”

الدكتور طارق الحصري

عميد القبول والتسجيل في جامعة صفار

"The transition has not only streamlined administrative processes but also significantly enhanced the student experience. With the new SIS, students can easily access their academic records... leading to increased student satisfaction."

Rana Chahine

Registrar, University of Balamand
